

OFFICER REPORT – DELEGATED

Application number: PA15/00018/NDP	Earliest determination date: 3 rd September 2015
Received on: 13th July 2015	Neighbour expiry date: NONE CONSULTED
UPRN: 999999999999	Consultation expiry date: 3rd September 2015
Legal agreement: N	Site notice posted: N/A
Departure: N	Site notice expiry: N/A
Complies with Development Plan? N/A If not, ensure you cover in the report how material considerations outweigh the plan?	
Is this decision contrary to local council recommendation?	

Applicant:	Perranuthnoe Parish Council
Site Address:	Perranuthnoe Cornwall
Proposal:	Designation request for undertaking a Neighbourhood Development Plan for the Parish of Perranuthnoe
Application Type:	Neighbourhood Development Plan

Executive Summary:

In accordance with the Neighbourhood Planning (General) Regulations 2012 ("The Regulations") any Neighbourhood Plan being produced must be carried out within a Neighbourhood Area the extent of which must be submitted to, publically advertised and consulted on for prescribed period and approved by Cornwall Council.

Perranuthnoe Parish Council is working on the preparation of a Neighbourhood Plan for the entire parish area of Perranuthnoe. An application for the designation of Neighbourhood Area was made to Cornwall Council and was advertised in the Cornishmen between the 23rd July and 3rd September 2015.

No objections were received to the advertisement of the Neighbourhood area and it is therefore recommended under regulation 6 that the Neighbourhood Area designation is confirmed and advertised as required by Regulation 7.

Public representations:

No public representations received at the time of writing.

Consultee representations:

Highways Agency: 3rd August 2015

Thank you for your letter of 24 July providing Highways England with the opportunity to comment on the application by Perranuthnoe Parish Council for the Parish to be designated as a Neighbourhood Development Plan (NDP) area.

Highways England is responsible for operating, maintaining and improving the strategic road network, which in Cornwall comprises the A30 and A38, and is a statutory consultee prescribed by the Neighbourhood Planning (General) Regulations 2012. We are keen to support the

development of neighbourhood plans and the delivery of local growth and therefore have no objection in principle to the Parish becoming an NDP area. However, due the relative proximity of the A30 to the west of the plan area, any policies coming forward have the potential to impact on the strategic road network. We would therefore wish to comment further on the plans it develops to ensure it includes a satisfactory assessment of traffic impacts and mitigation requirements, if appropriate.

Historic Environment Archaeology 20th August 2015

Advice on Neighbourhood Development Plan consultations are provided by the Strategic Historic Environment Service (SHES) as this is a policy issue. Please contact them direct for advice.

Natural England: 28th July 2015

Thank you for notifying Natural England of your Neighbourhood Development Plan dated 24/07/2015. Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England is a statutory consultee in neighbourhood planning. We must be consulted on draft Neighbourhood Development Plans where the Town/Parish Council or Neighbourhood Forum considers our interests would be affected by the proposals. We must be consulted on draft Neighbourhood Development Orders and Community Right to Build Orders where proposals are likely to affect a Site of Special Scientific Interest or 20 hectares or more of Best and Most Versatile agricultural land. We must also be consulted on Strategic Environmental Assessments, Habitats Regulations Assessment screening and Environmental Impact Assessments, where these are required. Your local planning authority will be able to advise you further on environmental requirements.

The following is offered as general advice which may be of use in the preparation of your plan. Natural England, together with the Environment Agency, English Heritage and Forestry Commission has published joint advice on neighbourhood planning which sets out sources of environmental information and ideas on incorporating the environment into plans and development proposals. This is available at: <https://www.gov.uk/consulting-on-neighbourhood-plans-and-development-orders>

Local environmental record centres hold a range of information on the natural environment. A list of local records centre is available at: <http://www.nbn-nfbr.org.uk/nfbr.php>

Protected landscapes

If your neighbourhood planning area is within or adjacent to a National Park or Area of Outstanding Natural Beauty (AONB), we advise that you take account of the relevant National Park/AONB Management Plan for the area. For Areas of Outstanding Natural Beauty, you should seek the views of the AONB Partnership.

National Character Areas (NCAs) divide England into 159 distinct natural areas. Each is defined by a unique combination of landscape, biodiversity, geodiversity and cultural and economic activity. Their boundaries follow natural lines in the landscape rather than administrative boundaries, making them a good decision making framework for the natural environment.

Protected species

You should consider whether your plan or proposal has any impacts on protected species. To help you do this, Natural England has produced standing advice to help understand the impact of particular developments on protected or Biodiversity Action Plan species should they be identified as an issue. The standing advice also sets out when, following receipt of survey information, you should undertake further consultation with Natural England.

Natural England Standing Advice

Local Wildlife Sites

You should consider whether your plan or proposal has any impacts on local wildlife sites, eg Site of Nature Conservation Importance (SNCI) or Local Nature Reserve (LNR) or whether opportunities exist for enhancing such sites. If it appears there could be negative impacts then you should ensure you have sufficient information to fully understand the nature of the impacts of the proposal on the local wildlife site.

Best Most Versatile Agricultural Land

Soil is a finite resource that fulfils many important functions and services (ecosystem services) for society, for example as a growing medium for food, timber and other crops, as a store for carbon and water, as a reservoir of biodiversity and as a buffer against pollution. It is therefore important that the soil resources are protected and used sustainably. Paragraph 112 of the National Planning Policy Framework states that:

'Local planning authorities should take into account the economic and other benefits of the best and most versatile agricultural land. Where significant development of agricultural land is demonstrated to be necessary, local planning authorities should seek to use areas of poorer quality land in preference to that of a higher quality.'

General mapped information on soil types is available as 'Soilscapes' on the www.magic.gov.uk and also from the LandIS website; <http://www.landis.org.uk/index.cfm> which contains more information about obtaining soil data.

Opportunities for enhancing the natural environment

Neighbourhood plans and proposals may provide opportunities to enhance the character and local distinctiveness of the surrounding natural and built environment, use natural resources more sustainably and bring benefits for the local community, for example through green space provision and access to and contact with nature.

Opportunities to incorporate features into new build or retro fitted buildings which are beneficial to wildlife, such as the incorporation of roosting opportunities for bats or the installation of bird nest boxes should also be considered as part of any new development proposal.

Should the proposal be amended in a way which significantly affects its impact on the natural environment then, in accordance with Section 4 of the Natural Environment and Rural Communities Act 2006, Natural England should be consulted again at consultations@naturalengland.org.uk

Constraints and designations:

Not applicable.

Relevant policies, SPGs and Government guidance:

Not applicable for the designation process.

Appraisal/key issues and conclusion:

The main issues in determining this application are:

- Whether an application for a Neighbourhood Area has already been made covering all or part of this area (as there can only be one Neighbourhood Area in each location and they cannot overlap)
- Confirmation that the applicant is a 'relevant body' to undertake Neighbourhood Planning in that area in accordance with section 61G of the 1990 Act and section 5C of the 2012 Regulations (i.e. a parish council or Neighbourhood Forum).
- Assessment of whether the extent of the Neighbourhood Area is appropriate.

No other application has previously been made covering all or part of this area and there are no existing designated Neighbourhood Areas covering, or close to the boundary of Perranuthnoe Parish.

Perranuthnoe Parish Council is a relevant body to undertake Neighbourhood Planning in that area in accordance with section 61G of the 1990 Act and section 5C of the 2012 Regulations.

The Neighbourhood Area is considered appropriate as it follows the boundary of the area covered by Perranuthnoe Parish Council.

It is therefore considered to be an appropriate area in which to prepare a Neighbourhood Development Plan.

Recommendation:

The Neighbourhood Area illustrated on Plan 1 is designated in accordance with the Neighbourhood Planning (General) Regulations 2012.
