Dear Sir/Madam

Withiel is a very beautiful part of rural Cornwall and becoming more popular as a desirable place to live. We feel that we need to create a community blueprint in order to preserve its character whilst encouraging sustainable growth for the future.

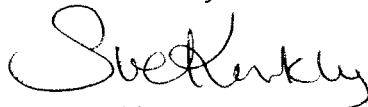

The Parish Council felt it was best placed to produce a neighbourhood plan for Withiel and by using the existing parish boundaries we were confident that collectively we understood the area and its problems.

Because of our size (we consist of a small village with a few outlying areas of multiple housing) we looked at joining in with neighbouring parishes, they were either committed to their own plan or not wishing to commit.

Having agreed that the Neighbourhood Plan would be the best route to obtaining our objective we produced and distributed an initial parish questionnaire.

We were delighted that 65% of our parishioners returned completed questionnaires and that the majority were in favour of producing a Parish Plan giving us a mandate to proceed.

Yours sincerely

Sue Kirkby
Chair, Withiel Parish Council
