

Future Cornwall

Cornwall Infrastructure Needs Assessment

Liskeard & Looe Schedule

This schedule contains the infrastructure requirements for Liskeard as well as the requirements for the rest of the Liskeard and Looe Community Network Area.

Local Plan	<p>The Local Plan seeks to focus development in the area on Liskeard, strengthen its role as main town and address local needs elsewhere in the area.</p> <p>The Local Plan key objectives for the Liskeard and Looe CNA:</p> <p>1,400 homes in Liskeard 1,500 elsewhere in the CNA to support sustainable communities.</p> <p>Development should:</p> <ul style="list-style-type: none"> • Enable the provision of affordable housing. • Sustain and enhance Launceston town's employment role, through the provision of employment sites and necessary infrastructure. • Raise the quality and quantity of employment opportunities. • Improve the provision of and access to community services and facilities, especially sustainable transport, health services, further and higher education and training opportunities and public open space. • To deliver the highway and sustainable transport infrastructure and other infrastructure required for the growth of the area. • Tackle congestion in Launceston. • Improve surface water drainage in Launceston. • Maintain and enhance the area's heritage assets for the benefit of the community and tourism. 	
Town Framework	<p>The Liskeard Town Framework document was prepared by the Council to help inform and guide future development at Liskeard. The Town Framework identifies a number of potential locations for growth and development and can be found via the following link http://www.cornwall.gov.uk/default.aspx?page=32824</p>	
Costs	<p>The schedule identifies costs of the infrastructure projects where they are known. In many cases however the project costs are not known or are subject to change and caution is needed in regarding these costs. The total known costs of projects in the Liskeard and Looe CNA schedule are shown below but these come with a health warning as they are only temporary totals.</p> <p>The total known cost (many costs unknown at this time and some costs shared with other areas) for delivering the infrastructure projects in the area is:- £36,239,535.00</p>	
Funding	<p>As with costs, the information on funding as shown in the schedule needs to be considered with caution, as new information on funding sources and figures emerges regularly. Funding for infrastructure in the Liskeard and Looe CNA could come from a number of sources including: ERDF Growth Programme, Cornwall Council, Homes and Communities Agency, Flood and Coastal Resilience Partnership Funding, the New Homes Bonus and Cornwall Community Infrastructure Levy.</p>	
Key Benefits	<ul style="list-style-type: none"> • Delivery of affordable housing • More high quality, better paid jobs • Increased sustainability of communities 	
Key Risks	<ul style="list-style-type: none"> • Diminishing or lack of funding for infrastructure • Too little development coming forward to help deliver key infrastructure
