Transforming Adult Social Care

Keys to life

Care closer to home

Improve outcomes for vulnerable people through enabling choice, personalisation and independence

- 
- An emphasis on **prevention** and **self-help**
 - Reducing needs escalating by providing, where necessary, the right **support** at the right time
 - A more **strengths based** approach where support is required

- 
- **Person-centred** care, which promotes choice and control for people with long term conditions
 - A role in enabling **families and communities** to provide safe and dignified care and support
-
