Cornwall Council and their agents Help to Buy South West provide this list for guidance purposes only. All companies listed are completely independent of Cornwall Council/Help to Buy South West and neither organisation offer a guarantee or accepts any liability for the independent advice you may receive as a result of instructing any of the surveyors listed. This list is not exhaustive and you are free to use any RICS surveyor (Royal Institution of Chartered Surveyors) who is able to provide this type of report save for where there is a further stipulation around the credentials of a surveyor as detailed in the transfer (examples of this could be where a Community Land Trust has assisted with a self-build project and require a RICS surveyor to have a minimum period of

qualification. Please check your TP1 land transfer document). Fees quoted are correct at September 2018 and cannot be guaranteed by Cornwall Council or Help to Buy South West.
