Notes:

| Item | Key/Action Points | Log Number (Action by) |
|-------------|--|-----------------------------------|
| 1. | <p>Introductions</p> <p>Chris Wells welcomed everyone and invited MOB to advise on the health and safety and housekeeping.</p> <p>Representatives introduced themselves.</p> <p>Apologies are noted as above</p> | |
| 2. | <p>Coast to Coast Local Action Group Funding</p> <p>Please see attached presentation and information leaflet.</p> <p>The Community Led Local Development (CLLD) Fund is looking to target and address long term deprivation and is based on Lower Super Output Areas representing the bottom 30% on the Indices of Multiple Deprivation. It is community led but driven by economic benefits, particularly helping people to move towards employment.</p> <p>It was noted that in terms of promotion and awareness, projects and businesses are targeted through the CLLD team’s database, Contracts Finder and general advertising. It is not targeted at individuals in the community; it’s for organisations to deliver the training they are going to deliver which will then be advertised in the target communities.</p> <p>Questions were raised around the administration cost of the project. Josyanne Thatcher explained that there are 4 x Project Facilitators, 2 x Project Coordinators, 1 x Administrator & 1 x Programme Manager (vacant post). The total cost of the programme is approximately £15m including management and administration costs; £12m being available to the community in grant funding. This funding is secured until September 2022.</p> | |

| | | |
|--|---|--|
| | <p>Cllr Mrs Armorel Carylon stated that she struggles to see the difference between the CLLD Project and the work that the LEP Project are currently undertaking. Josyanne Clarke stated that the LEP have no grant funds to give out in the same way as CLLD and concentrate on implementing strategies.</p> <p>Loic Rich CC asked whether the CLLD Funding would be available to help core funding Community Interest Companies (CIC). They would be able to apply but with a specific project and must be able to achieve the outputs.</p> <p>With regards to match funding in kind, there is scope to do this with volunteer time but only to a maximum of 10% of total eligible project costs.</p> <p>Chacewater PC stated that they would have the perfect project to suit the funding but the Parish does not fall into the areas being targeted.</p> <p>Chris Wells stated that the current figures show that the number of unemployed is low, so it is going to be hard to achieve the projects outputs.</p> <p>ACTION: Rob Knill asked if an update on the project could be shared with the Panel in 6 to 7 months' time.</p> <p>ACTION: David Harris asked if a list of potential funding streams could be compiled. Mark O'Brien stated that unfortunately the Grant Team in Localism was lost at a previous restructure however it does still have a Grants Advice page at www.cornwall.gov.uk/grants.</p> <p>Josyanne Clarke Area Co-ordinator (West Cornwall and Coast to Coast LAGs) Community Led Local Development</p> <p><u>Josyanne.Clarke@cornwalldevelopmentcompany.co.uk</u></p> <p>Tel: 01872 326047 http://www.cornwalldevelopmentcompany.co.uk Corporate Services Cornwall Development Company</p> | <p>Josyanne Clarke</p> <p>Mark O'Brien</p> |

| | | |
|------------------|--|-----------------------------|
| <p>3</p> | <p>Notes of the last meeting (17 July 2018)</p> <p><u>Speedwatch</u> It was confirmed that PC James Hosking is the contact for Community Speed Watch. They are now known as 'Police Buddies'. Chacewater PC recently had a requested to complete a questionnaire regarding their experience with setting up 'Speed Watch' within their Parish. As previously reported at an earlier meeting, the setup has not been smooth so this was reflected in the questionnaire.</p> <p>David Harris requested that for ease of the reader, full names are used within the Panel notes.</p> <p><u>Traffic Management</u> <i>James Hetherington raised the issue, and discussions took place around speed limit signs and investigating guidance around changing them</i> <i>Action: Mark OBrien to investigate and to be added to a future Panel Agenda.</i>[Extract from previous meeting's notes]</p> <p>Mark OBrien spoke to Adrian Roberts, Traffic and Safety Engineer CORMAC, and he has confirmed that individual issues can be looked at but must follow the National Guidance. Cllr Loic Rich raised the topic of designated quiet lanes and that he was under the impression Highways are not keen to pursue these. He believes designated quiet lanes do work to help with speeding.</p> <p>It was noted that Inspector Thomson was drafting a four point plan to help address issues of Motorised vehicles on public rights of way however he wished to take this back to the Parish Liaison Group before coming to the Panel. Steve Chamberlain informed the panel members that he would endeavour to arrange this meeting in advance of the next Panel meeting so the discussion can still go ahead in November.</p> | <p>Sally Sanders</p> |
| <p>4.</p> | <p>Traffic Management (standing items)</p> <p>Nothing raised</p> | |

| | | |
|--|--|--|
| | <p>them when required. They will also be responsible for maintenance. The cost is approximately £3k</p> <p>Rob Knill stated that Chacewater Parish Council had done a cost benefit analysis regarding static and mobile speed cameras. Support for the static cameras comes out more favourable.</p> <p>Please see the attached guidance relating to speed cameras.</p> <p>Any scheme being funded from the CNP Highways Budget must be carried out by CORMAC. If the funding comes from another source, then outside contractors can be used. The work will still require sign off by Cornwall Council Highways. This purchasing process had been signed off by Cornwall Council Procurement Department and the guidelines must be followed.</p> <p>A number of Parishes are not happy with this decision and Chris Wells stated that the issue had been raised at the last Community Network Chairs meeting.</p> <p>Rob Knill stated that from roughly looking through the costing of all the EoI, it looks like most of the schemes would be doable with this year's £50K funding. The schemes all look like they benefit Parishes and are not township led, which is a good thing.</p> <p>Steve Chamberlain proposed that the Panel agrees to progress with the EoI received, in priority order. What isn't finished this year can be carried over into the next financial year.</p> <p>Nicolas Gillard enquired as to what happens to the data that is recorded by the cameras and can the data of existing cameras contribute. Mark O'Brien stated that this information is within the guidance. and Cornwall Council requests that at least one set of speed readings is sent to them from any VAS signs each year.</p> <p>Cllr Bob Egerton stated that his 3 Parish Councils have already purchased their own cameras but support the proposals to the Highways Budget Scheme as the more cameras there are the better.</p> <p>Deputy Leader Cllr Julian German had asked whether the Panel would be happy to host the Public Budget engagement session at the November Panel Meeting. Panel members agreed for this to be added to the November panel meeting agenda.</p> | |
