

Dear _____ ,

To confirm our more recent email correspondence on this matter, the Council has reviewed the information provided and detail discussed at our meeting in December and a brief has now been sent to Cormac to look at implementing the Average Speed Cameras. We will be in touch with regards to timescales for this work and I have asked that you be kept up to date with progress throughout.

If you have any queries in relation to this, please do let me know.

With kindest regards
Natalie
