Green Infrastructure for Growth – Longstone Park, Saltash –
January 2019

Longstone Park is dominated by a central area of amenity grassland with a series of different play areas including a bowls club and Town Council buildings. The views from the top of the site are exceptional.

All ability picnic bench sited to maximise the views across the River Tamar

Replanting trees and adding a further 4 trees to complete the treeline along the boundary edge of the site. The understorey will be seeded with a shady wildflower mix.

A more pleasing entrance with boulders sitting atop a sunny meadow area.

An unused area of the park will be transformed into a wildflower meadow keeping a desire line in situ.

Further areas of shady mix wildflowers to maximise the areas beneath trees

A large border of pollinator friendly plants will disguise the toilet block
