1 Scope of the Policy

Students Aged 16-19

1.1 Local Authorities do not have a legal duty to provide free or subsidised transport for young people aged 16-19. However, under Section 509AA of the Education Act 1996, Local Authorities do have a duty to prepare and publish an annual policy statement specifying the arrangements for the provision of travel or other support that it considers necessary in order to facilitate the attendance of all persons of sixth form age (16-19) receiving education or training.

1.2 In order to promote access to education and opportunities for all young people in Cornwall, the Council provides subsidised transport for all students aged between 16 and 19 to access Post-16 education and training.

Learners Aged 19-25 with an Education, Health and Care Plan

1.3 Under Section 508F and Section 508G of the Education Act 1996, as inserted by Section 57 of Apprenticeships, Skills, Children and Learning Act 2009, Local Authorities have a legal duty to provide free transport which it considers necessary for eligible adult learners aged 19-25, and who have an Education, Health and Care Plan to attend qualifying establishments.
2 Eligibility

2.1 To qualify for subsidised transport, a student must:

✓ Live in Cornwall;

✓ Be 16 to 18 years of age on 31 August 2019 - or aged 19 if he/she started their course(s) before their 19th birthday;

OR

Be 19 to 25 years of age on 31 August 2019, and have an Education, Health and Care Plan;

✓ Attend one of the following types of establishment:

i. A school;

ii. A further education institution;

iii. A Council-maintained or assisted institution providing higher or further education;

iv. An establishment funded by the Education Skills Funding Agency (ESFA);

v. A learning provider delivering accredited programmes of learning which lead to positive outcomes and which is funded by the Council – e.g. colleges, charities and private learning providers.

✓ Attend his/her nearest or designated learning/training establishment (see Section 2.2 and 2.3) which offers their chosen course(s) – this includes establishments outside of the county. For students with Education, Health and Care Plans, the establishment’s provision must be an essential requirement to fulfil the learning outcomes identified in the learner’s Education, Health and Care Plan;

✓ Be learning/training on a full-time basis (approximately 14 hours per week across three academic terms);

✓ Live at least three miles from the learning/training establishment using the shortest available route, unless:
i. He/she has a disability, medical or mobility difficulties, or individual needs which mean that he/she could not reasonably be expected to walk the distance required, even if accompanied. Requests under this category must be accompanied by written evidence from a GP or Consultant. The evidence should provide confirmation of the individual’s medical condition(s) and an explanation as to how this prevents them walking the distance to and from the learning/training establishment. All requests will be considered on a case-by-case basis. Evidence of factors such as receipt of Higher Level Disability Living Allowance (DLA) may also be considered to assess the level of need.

ii. The nature of the route is such that the student cannot be expected to walk in reasonable safety, even if accompanied. In order for a route to qualify in this category, it must have been assessed and classified as an unsafe walking route by Cornwall Council. Details of the Council’s assessment process can be found in the accompanying Pedestrian Route Assessment Policy, available at www.cornwall.gov.uk/post16transport.

2.2 The designated school is the school designated for the student’s address by the Local Authority. This may be different from the designated area used by a school for admissions purposes. The designated area for all addresses in Cornwall can be viewed via: www.cornwall.gov.uk/education-and-learning/schools-and-colleges/school-admissions/designated-areas/.

2.3 Where a student lives within a designated area of a secondary school without a sixth form, subsidised transport will be provided to the learning/training establishment as defined in the table below. If the chosen course(s) is not available at that establishment, subsidised transport will be provided to the nearest learning/training establishment where it is offered.
### Designated Establishments | No Sixth Forms

Measurement of Distances

2.4 Measurement of distances in relation to eligibility for subsidised transport will be undertaken using the Council’s nominated Geographic Information System software (currently ArcMap) and will be taken from the main gate of a student’s home address (this is where the property meets the maintained highway; private driveways or access lanes are excluded) to the main gate of the learning/training establishment. Distance measurements will be rounded to two decimal points.

2.5 Walking distance is measured by the shortest route by which a student, accompanied as necessary, may walk in reasonable safety. This may include footpaths, bridleways and other pathways as well as maintained roads.

Moving Home or Transferring to a New Establishment

2.6 If a student moves house away from his or her nearest or designated learning/training establishment which offers their chosen course(s), and they have commenced said course(s), he/she will be eligible for transport if the house move was involuntary (e.g. social housing relocation or as a result of safeguarding issues) and the journey time to the establishment is less than 75 minutes in each direction. Requests for transport under this category will require supporting written evidence (e.g. housing association, Social Care).

Apprenticeships and Traineeships

2.7 Transport assistance is not provided for students on traineeships. The learning provider is responsible for ensuring that reasonable expenses are met fully if they are needed to overcome barriers to learning/training. These may include the cost of travelling to or from the place of learning/training or the work placement element. For further information, please contact your learning provider.

2.8 Young people who have a disability or health condition (physical or mental) that makes it hard to get to and from work may also be eligible for support through Access to Work. Further information can be found via www.gov.uk/access-to-work.
3 Provision of Subsidised Transport

3.1 Transport will be provided via the most cost-effective suitable method. The Council’s default and preferred mode of transport is via public transport. Where public transport is unavailable or unsuitable, alternative modes of travel may include a seat on a bus, minibus or taxi provided under closed contract to the Local Authority.

3.2 As a guide, journey times will not normally exceed 75 minutes each way. However, where a student attends a training/learning establishment which is a considerable distance from their home address, journey durations in excess of this advised threshold may be unavoidable. Should you require any advice on journey times, we strongly recommend that you contact the Transport Coordination Service prior to making an application.

3.3 Provided transport is for one return journey from the home address at which the student is habitually and ordinarily resident to the learning/training establishment at which the student is on roll, during standard academic terms only and at the official beginning and end of the establishment day only. Transport is not provided to meet a student’s individual timetable, including extra-curricula activities. Access to learning/training outside of these times should be discussed directly with the establishments attended; however, the Council will be unable to support or fund alternative or additional transport requirements.

3.4 Transport is not necessarily provided from door to door. Link transport to and from a transport route will only be provided where the student’s home address is more than five miles from a pick-up / drop-off point. The distance between the transport route and home address will be calculated along the shortest available driving route.

3.4 Where the course the student is studying is on a split site or at different establishments (e.g. one day in the main campus and another at an alternative campus), transport will be provided to the main campus only.

3.5 Passenger Assistants will only be supplied on provided transport arrangements where they are necessary to meet a child’s individual needs - see Section 4.7.
3.6 All staff engaged on Post-16 Transport contracts are subject to vetting by the Disclosure and Barring Service (DBS).

**Behaviour**

3.7 Parents/carers, learning/training establishments, transport operators and the Local Authority all have an interest in behaviour on transport. Each year, all parties are issued with the Local Authority’s ‘Code of Good Practice for Pupils’ guidance document.

3.8 The Education Act 2006 empowers headteachers and principals to take action to address unacceptable behaviour even when this takes place outside the premises and when the child is not under the legal control of the learning/training establishments, but when it is reasonable to do so. In the Department for Education’s view, this does include behaviour on transport.

3.9 Where there are repeated instances of unacceptable behaviour, or a single incident of extreme unacceptable behaviour, which breach the ‘Code of Good Practice for Pupils’, the Local Authority reserves the right to temporarily or permanently withdraw transport. This will be determined in consultation with the learning/training establishment; however, the final decision rests with the Transport Coordination Service.

3.10 For children with Education, Health and Care Plans, discretion will naturally be given where unacceptable behaviour occurs as a result of the child’s individual needs. However, where it is determined such behaviours are unresolvable and/or compromise the Local Authority’s duty of care to other passengers, the driver and Passenger Assistant (where applicable), the Local Authority reserves the right to temporarily or permanently withdraw provided transport. In such circumstances, the Local Authority may only be able to offer a mileage allowance to the parent/carer. Such decisions will only be determined in consultation with the child’s learning/training establishments, the Statutory SEN Service and the Transport Coordination Service.

**Payment of Travel Expenses**

3.11 On occasion, where no suitable transport provision is available, alternative arrangements may be considered to meet the Local Authority’s duty to provide travel arrangements for an eligible student.
This could include paying a mileage allowance where it is cost effective to the Local Authority to do so.

3.12 The payment of mileage allowances will be at the Local Authority’s discretion. The Local Authority also reserves the right to withdraw the offer of a mileage allowance where alternative appropriate transport provision becomes available that will provide better value for money. In such circumstances, a minimum of seven days’ notice will be given.

3.13 The offer of a mileage allowance will be at the rate of 25p per mile and can only be claimed with prior written agreement from the Local Authority. Payment is not backdated.

3.14 In exceptional circumstances, other expenses may also be paid in whole or in part where there is prior written agreement from the Local Authority.

3.15 Claims should be submitted in arrears once a month using the form provided by the Local Authority, and are limited to the amount agreed in advance. The Local Authority will seek proof of attendance from the learning/training establishment.

3.16 Any additional expenditure for travel/attendance at times outside of the beginning and end of the training/establishment day will not be reimbursed by the Council.
4 Arrangements for Children with Special Educational Needs and Other Individual Needs

4.1 Students with special educational needs and other individual needs (including medical or health needs) have the same entitlement to subsidised transport as all other students.

4.2 However, where a student has special educational needs the nearest learning/training establishment offering the chosen course(s) may well be different than for other students. Similarly, the type of transport provision that is appropriate may be different than for other students.

4.3 Where a Special School or a specialist setting is named by the Local Authority on a student’s Education, Health and Care Plan, that establishment will be deemed to be the student’s nearest provision for the purposes of transport eligibility, unless named as a result of parental preference and in the Local Authority’s view the child’s needs could be met at a nearer establishment. For some students, this may be a placement outside of Cornwall.

4.4 The appropriate transport provision for a student with special educational needs will be determined by the Statutory SEN Service (drawing down information from the young person’s Education, Health and Care Plan) and the Transport Coordination Service. This may also include liaison with previous schools, as well as other relevant professionals.

4.5 Where a student has an Education, Health and Care Plan and their assessment identifies the need for a residential placement, either in Cornwall or in an out of county resource, transport will be provided in accordance with the commissioned boarding arrangements. Transport will also be provided if the commissioned placement is closed (either planned or unplanned). Transport will not be provided for parental visits or meetings. The transport assistance normally provided for out of county placements is by way of reimbursement of mileage and/or expenses incurred.
Passenger Assistants

4.7 Passenger Assistants are not normally supplied on provided transport except in individual cases where they are, in the Local Authority’s view, necessary to meet a young person’s individual needs. The role of a Passenger Assistant will be to provide general supervision and ensure a safe and comfortable journey.

4.8 Passenger Assistants may be provided to meet more complex individual needs, such as medical or health requirements, where there is supporting evidence from two relevant professionals confirming that such support is necessary to ensure a young person’s safe journey. A corresponding Care Plan will also need to be provided. Only Passenger Assistants who have received appropriate specific training with regard to the needs of an individual child will be employed to provide such support.

4.9 Submission of supporting evidence does not automatically guarantee entitlement to a Passenger Assistant or specific individual arrangements and the final decision rests with the Transport Coordination Service.

Wheelchairs

4.10 Students who are transported seated in their wheelchair must have a valid Wheelchair Passport. The Passport is a tag attached to the chair after a travel assessment, normally at the time the chair is issued.

Independent Travel Training

4.11 The Transport Coordination Service is keen to speak with individual families about creative transport solutions with view to supporting a young person’s independence and preparations for adulthood. Such examples could include providing an additional bus pass to enable an adult to travel with the young person, instead of them traveling via taxi – this is often referred to as ‘independent travel training’.

4.12 Assistance under this category will only normally be agreed where it is cost effective to the Local Authority to do so. However, where costs are higher, consideration will be given to all such requests on a ‘spend to save’ basis.
5 Cost

Council Expenditure / Level of Subsidisation

5.1 In the 2018/19 academic year, Cornwall Council spent £2.55m on providing Post-16 Transport for 1,425 children and young people. This equates to an average annual cost to the Local Authority of £1,788 per student – or 75% of the cost of providing subsidised transport for students aged 16-19.

5.2 £1.72m was spent specifically on providing transport for 342 children and young people with an Education, Health and Care Plan. This equates to an average annual cost to the Local Authority of £5,027 per student – or 91% of the cost of providing subsidised transport for students aged 16-19.

Required Contribution for Students Aged 16-19

5.3 The required contribution for subsidised transport in the 2019/20 academic year is £500 per student. This contribution is required for all students (including those with an Education, Health and Care Plan) and can be paid in full, or termly in advance – see breakdown below.

- Autumn Term | £190
- Spring Term | £190
- Summer Term | £120

5.4 Should transport assistance no longer be required part-way through a term, the Local Authority will be unable to issue a pro-rata refund. This should be taken in to consideration before making the required contribution.

The 16-19 Bursary Fund

5.5 The 16-19 Bursary Fund is provided by Central Government to support 16-19 year olds with the cost of staying in education or training. National guidance advises that the money students (or their training/education provider) receive from the 16-19 Bursary Fund can be spent on the required contribution towards transport costs.
5.6 Applications for support through the 16-19 Bursary Fund should be made via the learning/training establishment. This scheme is not managed by Cornwall Council. For more information please contact your chosen establishment or college or visit www.gov.uk/1619-bursary-fund.

**Young Parents / Care to Learn**

5.7 For young parents under the age of 20, Care to Learn can help pay for childcare and related travel costs of up to £160 per child per week. For more information please visit https://www.gov.uk/care-to-learn/how-to-claim.

**Learners Aged 19-25 with an Education, Health and Care Plan**

5.8 As explained under Section 1.3, transport adult learners aged 19-25, and who have an Education, Health and Care Plan, are eligible for free transport.

**Lost Bus Passes**

5.9 Should a student lose or misplace their bus pass, a replacement will be issued at a cost of £10.
6 Applying for Transport

6.1 Applications for transport assistance in the 2019/20 academic year can be made from 1 June 2019 via www.cornwall.gov.uk/post16transport. We strongly advise you to apply as early as possible after this date.

6.2 Applications must be made by Friday 26 July 2019 in order for students to receive their travel pass/arrangements for the start of the Autumn Term - i.e. September 2019. Please note that travel passes/arrangements will not be issued until at least the first term’s payment is received.

6.3 Applications received after the 26 July 2019 deadline will be processed as quickly as possible. However, we cannot guarantee that transport will be in place for the start of the Autumn Term. If transport is not in place, students will need to make their own travel arrangements to and from the learning/training establishment in the meantime.
7 Concessionary Riders

7.1 Where spare seats are available on vehicles contracted by the Local Authority to provide transport to learning/training establishments, these may be allocated to students not entitled to subsidised transport – such students are referred to as Concessionary Riders. Concessionary Rider seats will only be made available where there are genuine spare seats available - i.e. fully-available and not where absenteeism falsely indicates availability.

7.2 The charge for a Concessionary Rider seat in the 2019/20 academic year is £500.

7.3 Concessionary Rider seats are allocated on a first-come-first-served basis. However, requests for returning students will be prioritised. Seats are valid for a maximum duration of one academic year only. From the start of each academic year (i.e. September) fresh applications must be made for all Concessionary Rider seats.

7.4 Any offer of a Concessionary Rider place will be made for the whole of the academic year, but on the understanding that any seat allocated will have to be relinquished with a minimum of seven days’ notice if, at a later date, the seat is required for a student who is entitled to subsidised transport, or the service is withdrawn when the transport requirements in the area are reviewed. In such circumstances, a pro-rata refund will be paid.
8 Appeals

8.1 Where an application for subsidised transport has been declined by the Local Authority, or if it is felt that the travel arrangements are unsuitable, there is a right of appeal against the decision on the following grounds:

- Eligibility;
- Distance measurements;
- The safety of the route;
- The transport arrangements offered;
- Exceptional circumstances.

Stage 1 Appeal

8.2 The parent/carer has 20 working days from receipt of the Local Authority’s decision to submit a Stage 1 Appeal.

8.3 Within 20 working days of receipt of Stage 1 Appeal, a Senior Officer within the Transport Coordination Service will review the original decision and respond with a detailed written outcome setting out:

- The nature of the decision reached;
- How the review was conducted (including the standard followed);
- Information about other departments and/or agencies that were consulted as part of the process;
- What factors were considered;
- The rationale for the decision reached;
- Information about escalation to stage two (if appropriate).

Stage 2 Appeal

8.4 The parent/carer has 20 working days from receipt of the Local Authority’s Stage One Appeal decision to submit a Stage 2 Appeal.

8.5 Within 40 working days an independent appeal panel will consider written and verbal representations from the parent and officers and give a detailed written outcome (within 5 working days) setting out:

- The nature of the decision reached;
- How the review was conducted (including the standard followed);
• Information about other departments and/or agencies that were consulted as part of the process;
• What factors were considered;
• The rationale for the decision reached;
• Information about escalation to the Local Government Ombudsman (see below).

8.6 Appeals under Stage 2 will be heard by the Local Authority’s Transport Appeals Committee, made up of Elected Councillors who are independent of any previous decisions which have been made regarding the transport application.

8.7 While waiting for an appeal to be heard, the responsibility for attendance and safe travel to and from the learning/training provider remains with the student and/or their parent/carer.

Local Government and Social Care Ombudsman

8.8 The Committee’s decision is final and there is no further right of appeal. However, there is a right of complaint to the Local Government and Social Care Ombudsman if the complainant considers that there was a failure to comply with the procedural rules or if there are any other irregularities in the way the appeal was handled.

8.9 If the complainant considers the decision of the independent panel to be flawed on public law grounds, the complainant may apply for judicial review.

Complaints to the Secretary of State for Education

8.10 To complain to the Secretary of State, young people or their families should use the contact form on gov.uk - www.education.gov.uk/help/contactus. Any complaint should outline the case, set out the decision taken by the local authority and include any other relevant documentation, for example any advice or decisions from the Local Government and Social Care Ombudsman where appropriate.

8.11 If the complainant is dissatisfied with the way in which the Secretary of State for Education has handled their case, they can log a service
complaint. Further information on the department’s complaints process can be found on gov.uk. A service complaint will prompt consideration of how the case has been managed but there will not be a review of the substance of the decision made. The substance of the decision would only be considered if the complainant provided additional information relevant to the decision not to intervene.

8.12 If the complainant remains dissatisfied, they can ask their local MP to refer their case to the Parliamentary and Health Service Ombudsman (PHSO). If the PHSO accept a complaint for further consideration they could normally look at the department’s handling of the case. The PHSO’s role is not to reverse decision-making, but where it upholds a complaint, it can make recommendations to the department to put things right. Information on the PHSO can be found online at www.ombudsman.org.uk.
9 Other Transport Schemes

9.1 Some learning/training establishment run their own transport schemes. Students, including those ineligible for subsidised transport provided by Cornwall Council, may choose to apply for transport under those schemes instead of via Cornwall Council. A brief summary of these schemes is given below. For full details, please contact the relevant learning/training establishment.

Cornwall College (Including Duchy College)

9.2 Cornwall College runs its own bus pass scheme for students attending campuses at Falmouth, Newquay, Pool, Rosewarne, Saltash and St Austell, as well as Duchy College Stoke Climsland.
