

Green Infrastructure for Growth – Crembling Well, Pool –
June 2019

<p>Before works Scrub and rank grassland encroachment</p>	
<p>Before works Non native plant overshadows chimney</p>	
<p>Before works Large grassed area</p>	

New shrub bed in raised beds sets off the steps to great effect.

Successful germination of Cornish provenance yellow rattle from Tehidy. Meadow creation has commenced.

Granite benches set aside the Cornish hedge provides new seating to admire the meadow from

The new planting and removal of non-natives provide the perfect backdrop for the chimney stack.
