This route will be a multi-use trail for walkers, cyclists and horse-riders utilising sections of the dismantled Chacewater to Newquay railway line between Perranporth and Newquay. It will create a new commuting and leisure route some 14km in length. The route will also provide connectivity for the villages of Goonhavern and St Newlyn East. Small sections of the route will be on 'quiet lanes' and some sections will need to be created where the dismantled railway line has been built on, or is unsuitable for re-purposing.
