<b>West Penwith CNA</b>					
101	Ludgvan	Individual	Parish boundary – Suggest that Eastern Green is consulted on becoming part of Penzance Town while the remainder of Gulval remain part of Penzance, ward of Madron or ward of Ludgvan. Gulval Village Association wishes to leave Penzance Town Council and join with Madron Parish. Conversation with residents in Gulval where this individual’s parents live, had the general feeling that they would better fit with Ludgvan Parish but confirmed that they do not feel part of Penzance Town.	Map	Madron Marazion Morvah Penzance Zennor
		Parish Council	Parish boundary – (i) Ludgvan will accept Towednack’s proposed boundary changes in order to unite the community of Nancledra within one Parish. (ii) Ludgvan will propose warding Towednack Parish. (iii) Ludgvan will propose a change to its boundary with St Erth, relocating the current boundary from the A30 to the railway line, up to Station Approach in order to unite the communities of Canon’s Town and Rose-an-Grouse within one Parish. (iv) Ludgvan will propose no boundary change with Marazion Parish. (v) Ludgvan will propose no boundary change with Penzance Parish, particularly as it relates to	Map	Gulval Marazion Penzance St Erth Towednack

			Long Rock. (vi) Ludgvan would be open to Gulval becoming a ward of Ludgvan, subject to the agreement of the local community.		
102	Madron	Parish Council	<p>Boundary Change - Gulval village area incorporated into Madron Parish. Southern boundary to follow the new Ludgvan, Madron, Gulval and Heamoor electoral division. Included 'green buffer' area from Cornwall Local Plan. And housing development approved at Trannack. Proposal would add approximately 600 electors (50% increase.)</p> <p>Ward Change – Currently 2 wards with 6 councillors each and elector ratios of 1:127 and 1:72. With the Gulval ward extended and no change to councillor numbers, these ratios would become 1:127 and 1:172, respectively. Madron Parish Council proposes to extend the Gulval ward boundary to include the village area. It proposes an increase in the number of Gulval ward councillors from 6 to 8. Any larger increase in Councillors would be difficult to recruit for. Change would add approximately 600 dwellings, Gulval church and Gulval school to Madron Parish. In the consultation period, Madron Parish Council wishes to see evidence that the merger is supported by the Gulval community before it is approved.</p>	<ul style="list-style-type: none"> <li>• Map outlining change to Parish Boundaries</li> <li>• Elector statistics within proposal</li> <li>• Clarification provided of the proposed ward change and proposed increase to the number of Councillors</li> </ul>	Ludgvan Penzance

105	Paul	Individual	Amalgamate St Buryan and Paul Parishes – No other information provided.	None	St Buryan
		Parish Council	Amalgamate Paul and St Buryan – Suggested that the new Parish is called 'St Buryan and Paul Parish Council'  Paul Parish Council has not been contested at the last two elections and struggles to be quorate at its bi-monthly meetings. Paul Parish has no centre of population. The proposed merger would bring the residents of Lamorna Valley into one Parish.	None	St Buryan
		Individual	Create new Parish (Newlyn, Mousehole & Paul) so that these communities can have their own identity, and a convenient means for addressing their own issues and interests at parish level.	None	Penzance
106	Penzance	Town Council	<b>No Change</b> – 1) Heamoor, acknowledged Heamoor as a community within Penzance Parish along with Gulval, Paul, Newlyn and Mousehole. It is contiguous with Penzance and is a suburb tightly linked socially and economically with Penzance. 2) Gulval, changes would have a negative impact on community cohesion.  <b>Boundary</b> – Gulval to include Longrock area to	Reasons not to create a new Parish of Heamoor Reasons not to lose Gulval to Madron Map showing the boundary extension into Ludgvan	Ludgvan

			<p>be co-terminus with the new electoral divisional boundary (2021). Longrock is Penzance’s industrial area and as such makes sense for Penzance to be consulted on key planning decisions. Will be able to extend existing service delivery.</p> <p>Ward Names – If successful the ward would be renamed to “Gulval and Longrock”</p> <p>Councillors – If successful the number of councillors within the enlarged ward will increase from 1 to 2 with the total number of councillors for Penzance increasing to 21 Members.</p>		
		Community Organisation	<p>New Parish by separating a Parish. Heamoor Village Council. Extensive application covering information ranging from the identity and interests of Heamoor to viability testing. It is a community led proposal in the spirit of localism set out by central government “We believe that localism is best achieved when it is led by the local communities themselves”. The proposed new boundary for Heamoor Village Council matches that of the existing Heamoor Parish Ward of Penzance Town Council.</p>	Map Consultation evidence Petitions	Ludgvan Madron

		Individual	Create new Parish by separating a part of a Parish (Newlyn, Mousehole & Paul) so that these communities can have their own identity, and a convenient means for addressing.	None	Paul
107	Perranuthnoe	Parish Council	Parish boundary - Current Northern boundary of the Parish be extended to incorporate part of the current St Hilary Parish. Also, the Western boundary be extended to incorporate part of the current Marazion Town Council. This would give a more realistic current day reflection on where logical Parish boundaries should be drawn driven by current infrastructure and perception affiliation and sphere of influence of Perranuthnoe Parish.	Maps	Marazion St Hilary
		Individual	Create grouped Parish – “Perranuthnoe Parish Council has a large area to cover with the continuing enlargement village of Goldsithney and Perranuthnoe villages. This has meant that Rosudgeon has not the attention it deserves. Issues were raised ten years ago which still have not materialised such as - dog bins etc, access to Parish Minutes which state continuous deferred items to next meetings where items are never concluded.” Suggestion to either amalgamate with St. Hilary Parish along with Kenneggy [Breage Parish] or	None	Breage St. Hilary

			introduce a separate Parish which could cover smaller surrounding villages reducing bias to specific areas.		
108	Sancreed	Parish Council	No change - Sancreed Parish has its own identity and individuality and would be swallowed up if an amalgamation with St Just Town Council was considered.	None	No
109	Sennen	Parish Council	No Change – Rural but tourism-based area that would not fit with an urban area such as St Just. It has its own problems with second homes and increased population, both settled and transient during the summer season. If it did need to amalgamate with another local authority, St Levan has more in common with tourism and seasonal issues.	None	No
110	St Buryan	Parish Council	New Parish by amalgamation, change Parish name – suggested name St Buryan, Lamorna and Paul Parish, change total number of Councillors – 12. “Having had discussions with Paul Parish Council it has become obvious that Paul PC is unsustainable and it has been looking to be amalgamated with a neighbouring Parish for a number of years. Talks with residents of Lamorna established their wish to have the division in the community, made by the river and Parish boundaries, removed.”	None	Paul
		Individual	Amalgamate St Buryan and Paul Parishes – No further information provided.	None	Paul
111	St Hilary	Parish Council	No Change - Long-established historic boundary and distinct Parish identity that works very well as it is. Any reduction in size would have a	None	No

			noticeable and strongly unwanted negative impact, (including the amount of precept received - kept low for benefit of all residents). Would strongly resist boundary change of any type.		
112	St Just-in-Penwith	Town Council	No Change – The Town Council has previously had conversations with neighbouring Parishes during which none had wanted to join with St Just. The Town Council do not want a hostile take-over and will not be requesting changes to their boundary. However, if circumstances change, they would be open to conversations with other Parishes.	None	No
113	St Levan	Parish Council	No Change - Historically a unique Parish with Minack Theatre and Porthcurno Cable Station and Museum. Residents of the Parish would be put at a financial disadvantage if changes were seen.	None	No
114	St Michael's Mount	Parish Meeting	No expression of interest or formal submission received		
115	Zennor	Parish Council	No Change – Accurately reflect historic nature of area and interests of community are well met.	None	No

			<p>Give two properties that currently lie within GGP on the edge of the village of Angarrack which currently lies predominantly within HP. The two properties cannot enter GGP without going through HP.</p> <p>3) Nanpusker (Pump House) – (Hayle) Take one dwelling, currently in HP but they cannot access HP without coming through GGP. There is also a County Wildlife Site (CWS) which is currently split between GGP and HP.</p> <p>4) Fraddam (St Erth &amp; Crowan) There are four properties which associate as part of the hamlet of Fraddam, three lying in the St Erth Parish (SEP) and one lying in the Crowan Parish (CRP). The property lying in the CRP has to go through GGP to make a journey. By bringing these properties into GGP it ensures the hamlet of Fraddam lies within one Parish. The majority of Fraddam currently lies within GGP.</p> <p>5) Leedstown (Crowan) Leedstown is a large village with majority lying within Crowan Parish (CRP). Spread of sporadic development out of Leedstown into GGP. These developments associate with Leedstown. Move 8 properties into CRP to ensure both sides of the road are in the same Parish. Move the 2 properties in the small area around Lambo into GGP by continuing the GGP boundary straight on.</p> <p>6) Hallancoose (Crowan) Take one property in the defined triangle which</p>	<p>(Hayle)</p> <ul style="list-style-type: none"> <li>• Map 4 – Fraddam (St Erth &amp; Crowan)</li> <li>• Map 5 – Leedstown (Crowan)</li> <li>• Map 6 – Hallancoose (Crowan)</li> <li>• Map 7 – Roseworthy/ Merry Meeting (Camborne)</li> <li>• Map 8 – Godrevy (Camborne)</li> <li>• Appendix b - 11 additional appendices detailing correspondence and meeting minutes</li> <li>• Appendix c, details and responses to comments from neighbouring Parishes</li> </ul>

			<p>has to go through GGP to leave their property but is currently in CRP.</p> <p>7) Roseworthy/Merry Meeting (Camborne) Take 12 properties - These hamlets are currently split between GGP and Camborne Parish (CP). We have seen evidence of residents living in Merry Meeting thinking they are part of GGP. Merry Meeting relates better to Roseworthy and GGP and the spread of development is towards GGP.</p> <p>8) Godrevy (Camborne) Take three properties - all go through the GGP to leave their properties. These properties would associate with Godrevy and the main road is a strong feature.</p>

		Individual	<p>Councillors - six councillors representing each ward, this may have been appropriate in the first half of the last century, when possibly the number electors in each ward was more equal.</p> <p>However, because of its location and connectivity the growth in the Gwithian ward has outstripped that of the Gwinear ward.</p> <p>Therefore, either the ward boundaries need to be adjusted, or the allocation of councillors to each ward needs amending to reflect the number of electors, to ensure the value of each vote as far as is possible is equal.</p> <p>By increasing the number of councillors to 14 (8 for Gwithian, 6 for Gwinear) this would future proof the apportionment, in that the Gwithian ward continues to attract greater development than the Gwinear ward.</p>	Evidence and options provided	No
202	Hayle	Town Council	<p>Parish boundary, Parish Ward boundary, Number Councillors in each ward – various movements of houses based on who they may identify with.</p> <p>Increased councillors.</p> <p>The two properties at Mutton Hill, currently part of Hayle Parish, be realigned to the Gwinear-Gwithian Parish as the properties are clearly within the Connor Downs area and the residents are part of that community</p> <p>The two properties at Trungle Mill, Angarrack currently part Gwinear-Gwithian Parish, be brought into the Hayle Parish. 203	St Erth	Parish Council (option 1)	No change - St Erth Parish Council believes that the residents in the two households, which would be affected by the Gwinear-Gwithian Parish Council submission, will identify with the Parish of St Erth rather than the 'community' of Fraddon.	Meeting notes	No
		Parish Council (option 2)	Parish Boundary - Realign the boundaries between the Parishes of St Erth and Ludgvan along the Western approach to the St Erth Roundabout (grid ref SW5441636149), adapting both the Ludgvan Parish Eastern boundary and the St Erth Parish Northern boundary, moving from a North/South orientation (along the A30) to an East/West orientation (river at the bottom of the Canon's Town Valley, adjacent to Heather Lane.
