Cornwall Operational WindTurbine/Wind Farm Sites

Turbine tip height
- 0 - 15m
- >15 - 50m
- >50m and over

Torridge Turbines
- Operational on appeal
- Operational

Operational West Devon Turbines
- Operational on appeal

These maps are generated for illustrative purposes. While the contributing authorities endeavour to keep them up to date, they should not be taken as a definitive record on which to base technical assessments, such as cumulative impact. Where there are a number of applications in a small area the points are indicative only.

Total operational capacity = 136.723MW
(This is an approximate figure for Cornwall Council as data not available for all applications)
