

Access Improvements

- Improve access for all visitors
- Consider dropped kerb to parking area
- provide paving adjacent to some seats to allow wheelchair user to sit alongside
- Tackle drainage issues - large puddles at entrance and at path junction.
- consider some aco drains, with run-off into planting.

Biodiversity Improvements

- Check records of what is already recorded growing here. Take advice.
- Consider some small wildflower meadow margins, using plug / turf planting.
- Add native spring bulbs, eg native daffodils.

Woodland Walk

- Clear areas within Harveys Foundry Ropeworks buildings, for public access and interpretation.
- Consider tree survey or check existing information.
- Manage trees and understorey for increased biodiversity.
- Consider visibility and safety for walkers using the route.
