

PLANS AND PLACES

An important part of developing a new road is considering how people currently live and move around our communities and making sure it fits with our vision for the future.

HAVE A LOOK AT THE MAPS AND LET US KNOW

- What are your most travelled routes through your community?
- Where are the trouble spots?
- Where it is difficult to cross the road, park, or see around things?
- Where do you most like to linger and lurk?
- Where do you stop for a natter or play with your friends?
- Where do you need to park a vehicle?
- Where are there any small spaces that could be improved or enhanced?
