

Seaton Playground

SEATON PLAY AREA

1. How should we prioritise the ages of children served by the new play equipment?

2. What play experiences would you most like to include in the new play area?

	Balance	Climbing	Co-operation/ social interaction	Crawling/ hiding	Inclusive (for all abilities)	Sliding	Spin/ rotating	Swinging	Responses
Top choice (1st priority 1)	0 (0%)	12 (21.82%)	4 (7.27%)	0 (0%)	18 (32.73%)	4 (7.27%)	1 (1.82%)	16 (29.09%)	55
2nd choice (priority 2)	2 (3.64%)	12 (21.82%)	6 (10.91%)	3 (5.45%)	7 (12.73%)	11 (20%)	1 (1.82%)	13 (23.64%)	55
3rd choice (priority 3)	3 (5.56%)	10 (18.52%)	6 (11.11%)	5 (9.26%)	7 (12.96%)	10 (18.52%)	6 (11.11%)	7 (12.96%)	54

Are there any others not listed?

- Seesaw

- Skateboard ramp

- Monkey bars would be my top 3

- Monkey bars / bars

- Monkey bars

- Bouncing

- no

- Equipment for physically disabled children

- Bouncing

- seesaw

- Disabled interactive space

- Bouncing - ground level accessible trampoline

4. What style of new children's play equipment would you prefer?

5. Which one of the following would you prefer?

GENERAL FEEDBACK

6. What is the **best** thing overall about the Seaton Play Area, ball court and green space?

The overall size allocated for the playing area

The climbing and hanging aspects and muga

The ball court

adjacent to fantastic parkland

the ball court is very popular. I like the green space. Need the addition of benches

Unsure...

At the moment not a lot. It's all fallen to shambles.

Location

Currently the MUGA

The ball court

It has many uses with easy access

Location

Nothing at present!!!

It's by a beach, by a beautiful nature country park and it's used by so many people

Its accessible for all.

The size and enclosed space

Unobtrusive and natural

Muga

The slide

Its setting, and convenience

Nothing good about the play area

The ball court, toilets nearby

Good size

Open access, nearby parking and toilets, nearby facilities (ie Pub)

The safe enclosed space

its a great place for the locals to use access in to looe is not always easy seaton is surrounded by natural beauty and there is so much to see and learn from

2 slides

The general location. Proximity to toilets

Easy access

Location

The ball court can be used for many different activities

Ball court is great for older children to have an area to play.

Allows local children an area of play to enjoy themselves away from the sea.

The ball court

Good location with easy access

Easily accessible, only facilities within 5miles

Ball court gets lots of use

Dogs are excluded

Mugga

Fenced in

small childrens play area and green space

A great level area with disabled Toilets, so brilliant accessibility.

They exist

Easy safe access for all and good facilities close by in toilets and Lifeguarded beach. Lovely location to take the children to.

Something for everyone and access

Natural play for kids - no hand held objects in sight!

That it is a flat accessible area (so rare in our area!) that all can get to, including wheelchair users

Green space

The variety of equipment/space

Accessibility to play area

range of activities so suitable for a broad age range

7. What is the **worst** thing about the Seaton Play Area, the ball court and green space?

Condition of the equipment

The park is broken

very tired and dull

the play area is falling apart. Monkey bars

Unsafe and dated play area and danger of moving vehicles

All of it. It's all been run down for so long we hardly go there!

Dilapidated play park - currently unsuitable

Flooding on the grass, difficult to play on grass area.

The park

Dog poo

It is in poor condition

Broken and run down space/equipment

Not suitable for under 3's

It's surrounded by a busy car park where people park anywhere and any place they can.

No swings roundabout, safe climbing areas

The rusty metal

Lack of facilities for teenagers

Playground is tired/dilapidated

No swings

Broken, dangerous, not inclusive

Everything

The play area is broken and old

Nothing suitable for children aged 0-2. A lot of families live in Downderry, would it be possible to have a small playpark in Downderry?

its looking tired, floor mats coming apart, etc.

Poorly maintained

the fact we have to pay to park to visit a local to us play park

Dangerous metal shards and rusting play equipment

The metal play area is rusty and dangerous. No swings.

Flooding

Lack of equipment

The playground has a lot of sections that have broken and been sealed off rather than repaired

Play area is looking very tired, floor has large gaps which are dangerous and old play equipment is missing but not fully taken away.

Ball court can only small amount of children an any one time.

The wooden multiplay structure. it is nerve-wracking for a single person to keep a toddler safe

Lack of disabled facilities

It doesn't have facilities for all ages and those with disabilities.

The gate in /out of playground is hung wrong way and dangerous when toddlers run off .

No trees to give shade or shelter from wind

No swings or seesaw

Gate too easy to open - toddlers escaping

ball court waste of space

Not much for disabled people/ children to interact with! A touch, feel, hear, safe place would be great

They limit what the area can be used for

The condition of the play equipment is very bad. I live in Donderry and it is a shame we have to walk all the way to Seaton along a road with no pavement in order to get to it.

Play area isn't big enough

The age of the current play park, & the see-saw missing for years.

None of the equipment can be used by disabled children and there is no Changing Places toilet for them to use.

Dangerous play area

Dogs being in designated play areas

State of flooring and limited equipment

the gate on the play park is not secure so toddlers can run get out on their own!

GENERAL IMPROVEMENTS

8. APART from new children's play equipment what would you like to see improved from the list below?

	Bins	Footpath/surfaces	Goals	Grass	Planting/trees	Seating	Signage	Wildlife value	Responses
1st choice (priority 1)	5 (9.26 %)	8 (14.81 %)	5 (9.26 %)	4 (7.41 %)	11 (20.37 %)	10 (18.52 %)	1 (1.85 %)	10 (18.52 %)	54
2nd choice (priority 2)	7 (13.21 %)	6 (11.32 %)	3 (5.66 %)	3 (5.66 %)	11 (20.75 %)	10 (18.87 %)	1 (1.89 %)	12 (22.64 %)	53

Anything else missing from above?

Lack of swings and see saws

If there's any way of improving grass area drainage?

Skate park

Making sure people park safely in the surrounding areas and that dog owners are picking up poo and keeping them on leads

An idea: to have a small play area in Downderry Memorial Garden, e.g. two swings and a slide

Raised beds with herbs/stimulation for people who can't always access nature easily

A covered area.

Possible play park in Downderry for growing number of children living in Downderry.

Flooding of green and car park all winter

Play area flooring.

paths all the way to Hessenford

Investment is needed to provide play equipment

Drinking water

The gate needs to open the other way, toddlers are able to easily push their way out! Kingsand playpark has an excellent range of activities for all ages.

Scooting/balance bike area

clearing of old seating

The Toilets flood and are unusable, part of the winter months. They pass excrement over the surrounding area. There also needs to be more parking space as this is an extremely popular area and parking is a real problem in the Summer. I'm sure that the extra parking revenue would more than help to pay for the work needed. It is the only level Beach accessible area for the disabled or infirm in South East Cornwall and as such, should be given priority over any other future funding opportunities.

The Muga goals need repairing. Rather than fabric net why not use a metal material as the back of the goal as it would last a lot longer. This is what most Muga's have.

A Changing Places toilet. Seating that allows a wheelchair user to be pushed right up to the table (wooden bench style tables with a wheelchair space do exist, I've seen them in the Isle of Man)

Drainage

Replace fencing along Sensory Garden

Secure gate needed!
