Green Infrastructure for Growth – Treloweth estate –
October 2018

Treloweth open space
before

Treloweth meadow area
before

New boundary of granite
blocks defines the park
complete with a new name
plaque

New seating and granite
rocks create a central area
close to the mine marker
and surrounded by
pollinator friendly planting

Meadow established on top of the hill to provide nectar and pollen for insects

New vista created from the top of the hill where the meadow now flourishes.

Pollinator friendly plants in flower

EU sign at entrance along with a new bin
